Jason was so intuitive and on point about everything from family, career, relationships and past loved ones. Not only did my mother come through him to speak to me but also gave me a lot of advice for future endeavors and relationships. It was not only a refreshing session but also felt like I got some life-changing advice. Please don't hesitate to book a session with him and come with questions! I am also spiritual myself and he gave me the confidence to keep pursuing my own path and help heal others myself.

Jason is truly the REAL thing! I know from personal experience. Jason and I have been long distance friends for the past 12 years. It is because of him that I know and believe in the fact that there is life after death and that some special people have the ability to communicate with the spiritual realm and our deceased loved ones. On two different occasions Jason called me out of the blue with messages from loved ones who had passed recently. The thing is, Jason had no way of knowing, either time, that I had any deaths in my family. As well, he knew details that only myself and the person who had passed knew about because they came from the last conversation I had with them. Their messages meant the world to me and helped me through losing them. His gift of communicating with the spirit world is very special and amazing. Jason has been able to give me comfort when he wasn't even aware I was in need. The spirits told him to contact me and what message to tell me with details that helped me know the message was truly theirs. Seriously, I answered the phone and Jason would say, "listen...I know this is coming out of no where but I'm compelled to tell you this." And he would start telling me. He didn't call and start asking questions and then make up general stuff that "maybe matched" what I had been going through. Both times, we hadn't spoken in a while. He could not have known what he knew without his ability being real!! I was stunned to say the least. His abilities are real and are a true gift. My email address is [tammie.crossley@icloud.c...](mailto:tammie.crossley@icloud.com) if you want to know more. I'm a real person who has really experienced these things with Jason. I wasn't paid to say these things and it's my hope if you're needing his help that my review will help you know you'll be getting the real thing with Jason.

Jason Zuk is amazing! He knew things I had never told anyone and was able to pick up on my loved ones who have crossed over. He also gave me work advice and things to look forward to in the future. This experience is so life altering and changes your view on everything. I'm so happy I had this experience and I can't wait to go back!

I found Jason in Yelp by reading the positive reviews. We met in his office. I felt comfortable with him. The reading he gave me was one of hope about my son who is facing many serious troubles. In fact, I took my son a few weeks later and it was amazing. My son now sees his current trials are for a reason and he is motivated to take action. He had been ready to give up. My son said everything Jason told him was right on the money. We are so grateful to Jason and we will be back.

What an amazing experience. I am so lucky to be able to meet with Jason and connect with my father on the other side. I received a lot of comfort from this and Jason knew things that you wouldn't be able to tell by looking at me. He is a very nice man and I recommend him!

Let me say, I usually don't trust a lot of people. I question just about everything and everyone. When first meeting Jason I instantly trusted him and his insight which is weird for me. When he gave me a reading it felt more like a conversation which I really enjoyed. I've come across some people who are very authoritative in their rhetoric but Jason really knew how to ease me into the experience. I would recommend him to all of my friends. If you have been wanting a clarity that you have been having trouble finding by yourself, I can say that Jason is a good person to reach out to.

An amazing experience. Catches me off guard everytime with accurate insights. What makes Jason special is that he answers your questions intuitively with much detail, but he also goes a step further and shares any messages that come to him that he feels are vital to share with you, even if it wasn't a question you asked. He goes above and beyond to make sure you leave with a sense of clarity and fulfillment.
